

open embedded

„Buildroot is so yesterday...“

„OE takes all the hassle out of cross-compiling“

„Well, looks like openembedded has really sorted out my install/setup nightmare for this eval board... thank you guys. In the last 4 hours, i've gotten more done with this board than i have in 6 months“

„Well I just got OE set up and I've been really impressed so far.“

„Cross Compiling software has never been so easy!“

„Thanks to OE I have brand new software for my aged iPAQ and Zaurus models!“

„OpenEmbedded is an open, solid, powerful and incredibly flexible build system which provides commercial grade tools to build our mobile phone platform with.“
